- Weaknesses: They have deflation
- Strengths: The GDP per capital is high and also it's a developed country
- Recommendations: I recommend that it should have a little inflation because a little inflation shows the country is growing. And they should also invest money on new technology

EXECUTIVE SUMMARY

- Japan is developed country with a deflation and with a population of 127,7338,628. they have high GDP but because of the deflation the country is not growing. Country's like China and United states are the import and Export partners.
